

Year 1 Homework

Challenge 23.05.11

This week in Year 1 we are writing our own versions of the Cinderella story! It would be fantastic if children could produce an illustration at home to go with their story and if they could explain to you what their picture shows.

In maths we are working on doubling and halving. It would be helpful for all children to have experience of practising doubling and halving at home, focusing on learning doubles up to ten.

Thank you,
Year 1
