

Year 1 Homework Challenge 13.06.11

This week in maths we are going to carry on practising counting in 2s, 5s and 10s. We will practise starting from different numbers and counting forwards and backwards. Please practise this at home too.

We will be continuing our work exploring plants and animals for the rest of this half term. We would like you to explore your garden and local surroundings and see what plants and animals you can find. You could draw a picture or take a photograph.

Have fun
