

## Year 2 Homework Challenge

### 31.10.11

**Maths:** This week we are starting to use Maths Passports in Year 2. We will be assessing each child individually and setting homework based on their target. All children will have their maths homework by Wednesday.

**Literacy:** Our focus is 'Instructions'. This week we will do lots of work on giving verbal instructions. We will be thinking about how important it is that instructions are precise and use time connectives (First, next, then etc.). It would help all children to give verbal instructions to adults at home to give them extra practise and so they can see what happens if their instructions aren't accurate!

Have fun... Year 2 Team
