

# Year 2 Homework Challenge

## 30.01.12

**Class Assembly:** It's our class assembly this week. All the children have words to learn. If they need a costume there is a note in their planner. All other children just need to wear bright coloured clothes! We are looking forward to seeing you on Thursday at our performance.

**Science:** We are continuing our materials work. The children will be asked to choose a room in the house to research. They will need to record the materials they can find in the room and why they are suitable for what they are used for.

**Spelling:** We will continue to look at compound words as well as some high frequency words.
