

## Year 1 Homework Challenge 28.03.11

This week in Literacy, Year 1 are learning about poetry. We will be learning some poems and then performing them with actions. It would be really helpful if you could talk to your child about their favourite poems. We will be talking about this in our lesson on Friday so, if they wanted to, children could bring their poems in with them then.

In maths we are working on being able to work out 1 more and 1 less and then 10 more and 10 less. We have been playing a game in class using a hundred square. If you would like a copy of a 100 square to play this game at home with your child, please just ask.

Thank you,

Year 1
